

NO REFUGE

You made me sleep on these rocks

You made me sleep on these rocks

You made me sleep on these rocks

You made me sleep on these rocks

Gonna find your friend and then

It's time for my revenge

You made me sleep on these rocks

You made me sleep on these rocks

Gonna hunt him down

Gonna hunt him down...like a dog

For you...loosing me has just begun

For you...loosing me has just begun

For you...loosing me has just begun

For you...loosing me has just begun

Gonna find his name and then

I'll make things right again

For you...loosing me has just begun

For you...loosing me has just begun

Gonna hunt him down

Gonna hunt him down...like a dog

There's no

There's no refuge anywhere

I'll design the perfect nightmare

There's no

There's no refuge anywhere

I'll design the perfect nightmare

Gonna hunt him down

Gonna hunt him down...like a dog
