

SHE WAS GOOD

She may act like an angel
But deep down inside she's no good
She started by telling me lies
To hide what was inside

Even though she was bad
She was the only girl I ever had
And she was good

Well she said I tried to hurt her, but I know
That could never be
Because I know in my soul
She would never give that chance to me

Even though she was bad
She was the only girl I ever had
And she was good

Well she said I tried to hurt her, but I know
That could never be
Because I know in my soul
She would never give that chance to me

Even though she was bad
She was the only girl I ever had
And she was good

She was good
She was good
She was good
