

# ARMED AND FAIRLY WELL EQUIPPED

You were right  
I'm left  
She's gone  
I Know  
You're gone  
But we are one  
You're hurtin me  
Been played for a fool  
But no one's tryin  
There's no escape  
For you and me  
Hell knows I'm trying

I'm hot  
You're cold  
She's a penny for a dime  
I need you  
I need you now  
But something's missing  
Demon drugs  
Teenage sex  
The only joy you gave me  
Demon drugs  
Teenage sex  
I've had a heart of gold missin

You are my private Vietnam  
Another bad dream without end  
You are my private Vietnam  
And I just can't stop the shooting  
You are my private Vietnam  
Another bad dream without end  
You are my private Vietnam  
I can't stop shooting

I'm gone  
You're gone  
We're going nowhere  
You look me up  
Put me down  
I know I like it  
You took my life  
Into a hole  
Hole in the ground  
Maybe one day  
I'll awake  
And shoot you down

You are my private Vietnam  
Another bad dream without end  
You are my private Vietnam  
And I can't stop the shooting  
You are my private Vietnam  
Another bad dream without end  
You are my private Vietnam  
I can't stop shooting

Everything's gonna be alright
