

SUICIDAL APPETITE

Music: Schau

Lyrics: Schau

As soon as I'm dead
Take a knife to my head
Crack open my skull and have a look inside
You'll see a button
With the words "self-destruction"
Still burning bright, even though I just died

Just like those multicolored wires in bombs
That are meant to be uncrossable
Growing up would mean I'd have to go on
You see why that's not possible
You can't, like Skynyrd sang, unsing a song

The pull of gravity
Right before brutality
Such a cruel kind of beautiful

Suicidal appetite

I need more

Just like those multicolored wires in bombs
That are meant to be uncrossable
Growing up would mean I'd have to go on
You see why that's not possible
You can't, like Skynyrd sang, unsing a song
