

DECLARATION OF ISOLATION

Music: Schau/Nilsen

Lyrics: Schau

If everybody sees me
But no one ever listens
Can you please explain me
The point of my existence

I won't ever show my face again no more
Never ever show my face again no more
You will never see my face again no more
Consider this a declaration of isolation
Isolation

Nor life or nature cares
If justice is ever done
So I won't take myself with me
Your destiny was always destruction
Look after me while I'm gone

I won't ever show my face again no more
Never ever show my face again no more
You will never see my face again no more
Consider this a declaration of isolation
Isolation

Stay
You're frightened of what I'll do
Stay
Well I am frightened too
Stay
Only one thing for you to do
Stay Away

I won't ever show my face again no more
Never ever show my face again no more
You will never see my face again no more
Consider this a declaration of isolation
Isolation
