

# ANYTHING YOU DON'T REGRET

Do you remember this one  
We played it on and on  
Became our favorite song  
Do you remember

Anything at all  
From the night we met  
Anything at all  
You don't regret

And the concert that we missed  
As I stood guard while you pissed  
Do you remember when we kissed  
Do you remember

Anything at all  
From the night we met  
Anything at all  
You don't regret

I miss you more than anything  
And I do believe I will die  
If you tell me it meant nothing  
When I've never felt more alive

Anything at all  
From the night we met  
Anything at all  
You don't regret

I miss you more than anything  
And I do believe I will die  
If you tell me it meant nothing  
When I've never felt more alive  
I miss you more than anything  
And I do believe I will die  
If you tell me it meant nothing  
When I've never felt more alive
