

FOLLOW THE ENEMY

Follow the enemy
Kindness is history
This is for you and me
This is for you and me

Follow the enemy
Anger is guiding me
To some kind of victory
Some kind of victory

Into foreign territory
Follow the enemy

Follow the enemy
Blessed are the ones who see
That this is the time to flee
This is the time to flee

Follow the enemy
Nothing I'd rather see
Than death to the left of me
And you to the right of me

Into foreign territory
Follow the enemy
Violence will set you free
Follow the enemy

Ride on

Into foreign territory
Follow the enemy
Violence will set you free
Follow the enemy
