

I'M NOT TALKING TO YOU

If my silence's so depressing
You're ignorance is damn impressing
I'm not talking to you
I'm not talking to you
Cause you never fucking listen

It goes on
Forever
A lifetime
Together

Is this grief or pure aggression
Read my mind or keep on guessing
I'm not talking to you
I'm not talking to you
Cause you never fucking listen

It goes on
Forever
A lifetime
Together

They say man is born into misery
And has but a short time in which to live
Well, life never came
Now life never can
God bless the woman
God help the man

No words in my last confession
Nothing's there, so nothing's missing
I'm not talking to you
I'm not talking to you
Cause you never fucking listen

It goes on
Forever
A lifetime
Together

They say man is born into misery
And has but a short time in which to live
Well, life never came
Now life never can
God bless the woman
God help the man

Cause you never fucking listen
