

NEVER ALONE

I can't remember the last time I was alone
Because of you girl...you're always at home
I miss coming home drunk, I've been in a fight
I miss **pissing in the sink** in the middle of night
But not now, never...you're always at home

Hey, hey
I love you more than anything else
Hey hey
And I don't wanna live be myself
Hey hey
I just need an inch of space
I can picture my own headstone
"He was never alone"

You're the best fucking person I've ever known
But it's like I am snowwhite, and you're the 7 gnomes
I miss passing out drunk on the kitchen floor
I miss **taking a dump** with an open door
But not now, never...you're always at home

Hey, hey
I love you more than anything else
Hey hey
And I don't wanna live be myself
Hey hey
I just need an inch of space
I can picture my own headstone
"He was never alone"

Never alone
Never alone
