

THE END HAS BEGUN

Music: Schau

Lyrics: Schau

Let's take a stance against the nothingness
Our lives are bound to become
And head out for total destruction now
Something special, uncommon ground

Can't you see
We're breaking free

Baby, come on
It's time for your fun
The end has begun
I've got more than enough guns
For you

And let's forget all about guilt, baby.
Everyone has some tucked away.
The only question is how much damage
We'll let it have by the end of our day

Can't you see
We're breaking free

Baby, come on
It's time for our fun
The end has begun
I've got more than enough guns
For us

Don't look back
Attack
We've set the trap
Attack
Don't look back
Attack
Burn them black

Baby, come on
It's time for their fun
The end has begun
I've got more than enough guns
For all
